AGRICULTURE YEARBOOKS

For sale by the Superintendent of Documents

These seven books are all part of the Department of Agriculture's continuing **Yearbook** series. Each one takes a close look at a different facet of the food production and supply system during a critical development period. Taken together and viewed from an historical perspective, these books provide a unique and remarkably clear record of the growth of the many components of the enormous team that supplies the Nation's supermarkets with the variety of plentiful, first-quality foods we have enjoyed since the Second World War.

Crops in Peace and War; The Yearbook of Agriculture 1950-1951.

In the immediate post-War years, one of America's continuing interests was the development of new uses and products for available raw materials. This book examines War-time discoveries in the utilization of agricultural products and discusses the technologies that held potential for further benefits in peace and war. 1951. 942 p. il.
A 1.10:950-51
S/N 001-000-00098-5 **Cloth, $9.25**

Food; The Yearbook of Agriculture 1959.

In 1959, a very popular and widespread concern was for the application of our abundant food supply to a high-quality, balanced diet based on the latest discoveries of the science of nutrition. This book discusses the need for meal planning and provides guides to good nutrition, advice on food quality and preparation, and much more. 1959. 736 p. il.
A 1.10:959
S/N 001-000-00106-0 **Cloth, $7.85**

Seeds; The Yearbook of Agriculture 1961.

Increased yield, greater disease and weather resistance, and a higher quality product were all benefits of the purposeful development of hybrid agricultural crops. In 1961, the Department of Agriculture published this book to help satisfy the demand for knowledge about the life processes of seeds, their commercial production and processing, the certification and testing of new horticultural varieties, and so on. 1961. 591 p. il.
A 1.10:961
S/N 001-000-00108-6 **Cloth, $7.40**

Farmer's World; The Yearbook of Agriculture 1964.

More American farm products were exported in 1964 than in any previous year. The total value of these exports was close to $5 billion and they supported at least a million jobs, both on and off the farm. This book reviews and pays tribute to America's part in world agriculture and to the farmers who contributed so much to their country and their world. Production, marketing, world trade, agreements, assistance, and needs are all discussed. 1964. 592 p. il.
A 1.10:964
S/N 001-000-00111-6 **Cloth, $7.00**

Protecting Our Food; The Yearbook of Agriculture 1966.

Early in 1966, President Johnson declared a war against hunger brought on by the exploding world population. And during 1966 the US sent more food to India than any country had ever sent to another. Yet in our own country alone, we had to fight 10,000 kinds of insects, 1,500 plant diseases, and 250 animal diseases for our food supply. This book examines the pests and the programs that countered them so effectively that we could continue to provide food and agricultural technology to help feed the hungry overseas. 1966. 386 p. il.
A 1.10:966
S/N 001-000-00113-2 **Cloth, $5.85**

Food For Us All; The Yearbook of Agriculture 1969.

In 1969, we were beginning to realize that even though we had attained the greatest food production capacity ever achieved, poverty- and ignorance-caused malnutrition was rampant in our country. This **Yearbook** describes the programs by which America was caring for its hungry and helps educate the consumer by providing a great deal of information on good nutrition, on choosing food for health and vigor, shopping for greater value, preparing food in the most healthful manner, creating good food habits, and much more. 1969. 360 p. il.
A 1.10:969
S/N 001-000-00116-7 **Cloth, $5.95**

That We May Eat; The Yearbook of Agriculture 1975.

This **Yearbook** marked the centennial of the State Agricultural Experiment Stations by describing past scientific achievements that made a great impact on farming and food, telling of ongoing research into current problems in production and processing, and reviewing the obstacles to be faced and conquered in the future. It's a summary of the tremendous affects of scientific agriculture and an analysis of the nearly incomprehensible progress that has been made in the efficient use of our agrarian resources. 1975. 362 p. il.
A 1.10:975
S/N 001-000-03471-5 **Cloth, $7.30**

Preface

In response to requests by the library community and the Depository Library Council to the Public Printer, the Assistant Public Printer (Superintendent of Documents) in the summer of 1974 directed the Library Division to join the Ohio College Library Center's on-line cataloging network, convert to the MARC format, and catalog according to Anglo-American cataloging rules (AACR).

The *Monthly Catalog* utilizes AACR and Library of Congress main entries. Subjects are derived from *Library of Congress Subject Headings* 8th edition and its supplements. The catalog consists of text and four indexes—author, title, subject, and series/report number.

The Government Printing Office considers the *Monthly Catalog* to be an evolving publication. Its scope and timeliness will continue to be of prime importance.

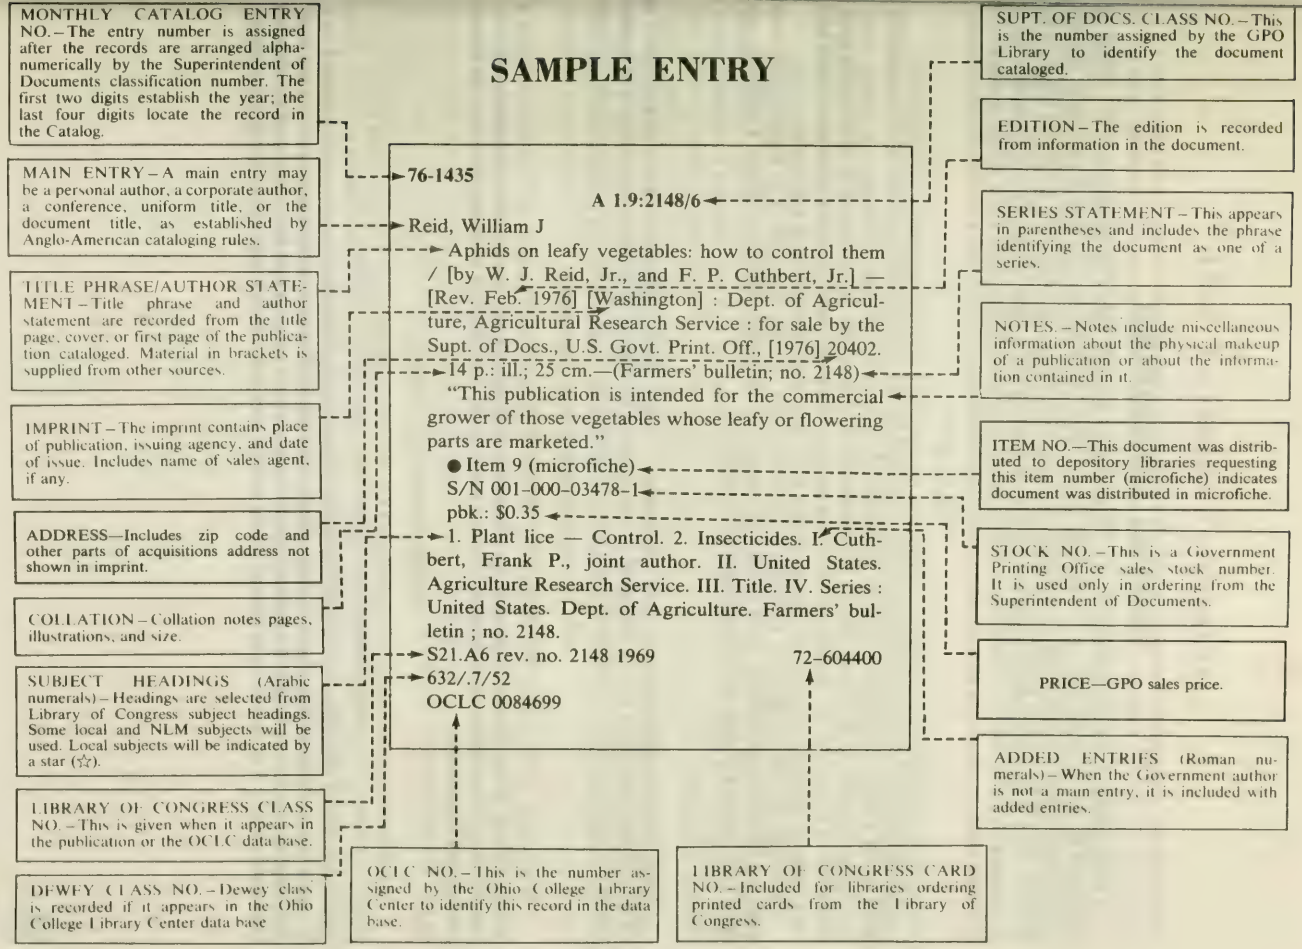
LIST OF GOVERNMENT AUTHORS

The alphabetical list in the preliminary pages locates the catalog sequence of documents issued by a specific agency. This list is compiled each month and includes only Government authors of documents received and cataloged during that time span.

INDEXES

Entries in the Monthly Catalog are indexed for access by author, title, subject, and series/report:

Author index: An alphabetical list of personal authors, editors, co-authors, corporate authors, and conferences.



Title index: An alphabetical list of titles, series titles, and sub- or alternate titles.

Subject index: An alphabetical list of subjects derived from Library of Congress Subject Headings.

Series/report index: An alphabetical list of report numbers and series statements.

A margin index on the back cover locates the four listings. Cumulative indexes are published semi-annually and annually. Titles in all indexes are followed by the text entry number where more detailed information is available.

SAMPLE ENTRY

General Information

The Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., 20402, is authorized by law to sell copies of Government publications. A 25 percent discount is allowed to purchasers of 100 or more copies of a single publication mailed to one address. Bookdealers, buying for the purpose of resale, may receive the same discount regardless of quantity if the publications are mailed to their place of business. No discount is allowed when the publications are mailed to a third party unless in quantities of 100 or more, or on several periodicals or groups of publications which fall into a special pricing category.

PRICES

The prices of all U.S. Government publications sold by the Superintendent of Documents are established by the Public Printer in accordance with Title 44 of the United States Code.

Prices are subject to change and the prices charged on your order will be those in effect at the time your order is processed. As it is not feasible to manually correct the prices in the publications affected by price changes, the prices charged on your order may differ from those printed in the publications.

Although the issuing agencies generally know about price changes, some agencies inadvertently continue to publish announcements, order forms, and catalogs which contain erroneous prices. Frequently, the news media publish articles with erroneous or outdated prices.

PRICE LIST

There is no general price list of public documents, but numerous bibliographies have been prepared o special subjects and these will be furnished, on application, by subject or subjects concerning which infor mation is desired. It will also be noted that current publications which are for sale are listed in this catalog

LIST OF SELECTED PUBLICATIONS

In addition to the subject bibliographies, the Office of the Superintendent of Documents issues a monthly list of Selected United States Government Publications for sale by the Superintendent of Documents. Each list contains annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL PUBLICATIONS

Subscription service has been implemented for the following groups of Congressional publications: House and Senate Documents; House and Senate Hearings; House and Senate Reports on Public Bills; House and Senate Reports on Private Bills; Public Bills; Private Bills; Public Laws; and Private Laws. In most cases, single copies of publications in these groups of Congressional publications are not sold. Sales copies of a few of the more important ones are printed, and you will find the sales prices listed in the individual entries. The current subscription prices may be obtained from the Superintendent of Documents.

How To Order Publications

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a "for sale" statement in the text entries. Those Congressional Publications which are not for sale may be obtained from the responsible Committee, or from the House or Senate Documents Room. Entries for publications sold by National Technical Information Services include a statement to that effect. Unless otherwise indicated, publications are distributed by the issuing office which appears immediately before the publication date in each entry. Additional information necessary for procuring documents appears above or within text entries. Requests to issuing offices should contain titles and dates of publications.

Do *not* use the L.C. card number in ordering publications.

HOW TO REMIT

Remittances for Government Printing Office sales documents should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by check or money order. Publications cannot be mailed in advance of receipt of remittance. Foreign remittances should be made by International Postal Money Order, by draft on a United States or Canadian bank, or by UNESCO Coupons. All remittances should be made payable to the Superintendent of Documents.

Orders received with postage stamps, International Response Coupons, or foreign money will be returned.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of $50.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, and the amount of charge.

No charge is made for postage on documents forwarded to points in United States and its possessions. There is a special handling charge on all orders mailed to other countries. The charge is one-fourth of the current selling price of publications and subscription services ordered. This is to cover the special handling required to comply with the customs and international mailing regulations.

USE STOCK NUMBERS FOR BETTER SERVICE

Because we now warehouse, store, and pick publications by their stock numbers (S/N), we can process your orders more quickly and accurately if you order by stock number and title. If you don't know the stock number, then order by title and the classification number which appears above each entry. Congressional documents and reports should be ordered by title together with the document or report number and the Congress, e.g., 94–1:H.doc.1.

LIBRARY CLASSIFICATION OF GOVERNMENT DOCUMENTS

The classification given above entries for departmental publication is that used in the Library Division of the Office of the Superintendent of Documents. The shilling mark (/) separates what ordinarily would be superior or inferior numbers or letters. It is not practicable to print these numbers or letters as *superiors* or *inferiors* in the Monthly Catalog.
